

We would like to take this opportunity to introduce you to a range of natural stone products available from our quarries in the Cotswolds.

BUILDING STONE

The range of stone we produce is suitable for restoration projects and new builds this is produced as a rough dressed building stone which will require dressing on site.

This stone is usually supplied 100 - 125 mm on bed with face heights ranging between 2 - 6 inch and random lengths.

- Lower Buff
- Natural Grey
- Cotswold Cream
- Grange Hill Grey
- Grange Hill Cream
- Cotswold Buff
- Weathered Grey

Above products can be supplied individually or mixed to provide a variation in both size and colour.

Available as random in bags or graded small, medium and large bagged.

- **Special requirements are available but would need to be quoted accordingly.**

DRYSTONE WALLING

Supplied random with thickness varying from 25 – 115 mm. Coverage is approximately 2 - 2.5 face meters per tonne bag. Available in grey or cream.

ARCHITECTURAL MASONRY

We can produce and supply a wide range of natural stone masonry, from cills, copings and lintels through to more detailed architectural work like mullion window surrounds, cornice, fire places and columns.
